ANNUAL CONFERENCE OF THE INTRAOCULAR IMPLANT & REFRACTIVE SOCIETY, INDIA

Invitation

ANNUAL CONFERENCE 2011

Refining Vision

Hotel Le Meridien, New Delhi

August 13th & 14th, 2011

Dear Friends,

A warm welcome to the entire ophthalmic fraternity for the Annual Conference of the Intraocular Implant and Refractive Society of India to be held on 13th and 14th August 2011 at Hotel Le Meridien, New Delhi.

The conference will provide a forum for discussing the latest developments and ideas related to cataract and refractive surgery. The topics will be ranging from cutting edge cataract surgery and innovations in IOL designs to posterior segment issues for the anterior segment surgeon. Advances in refractive surgery as well as complications will be highlighted. Apart from this there will be a potpourri of special and interesting cases and management guidelines for tackling cataract surgery complications both intra op and post-op. An extensive live surgery session will be conducted on the first day featuring premium cataract and refractive surgeries by the experts along with tips and tricks for newer IOLs especially the Glued IOL. The femto-second laser and its multiple uses will also be demonstrated by the pioneers in refractive technology. On the second day we will have the Ophthalmic Premier League Session where 4 teams will showcase how they managed the toughest and most challenging case followed by a lively debate upon the merits of each technique.

The conference hopes to provide a rare opportunity to meet the best brains in the field of cataract and refractive surgery. Eminent national and international faculty will share their pearls of wisdom and experience to make it a truly enriching experience for all of us. Here's extending a hearty welcome once again to all our friends. We sincerely hope you will join us in making the conference a huge success and look forward to having you with us in New Delhi.

Best regards
